Free

December 2005  
15th edition

[www.everything-equine.com](http://www.everything-equine.com)

Dear Santa,  
We have been very good  
this year. Please bring  
us a stallion that is  
outstanding in his field.

Sincerely,  
The Mares

The distribution philosophy is to have a moderate number of magazines in every store possible rather than have a large number in just a few. By doing so, it increases the chances of a greater range of people receiving the magazine. Most people are loyal to their favorite feed and tack stores. If a larger number of magazines were distributed to just a few stores, people that do not frequent the chosen stores would never see the magazine. If Everything Equine is not at your store of choice, please contact Everything Equine and your store will be added, with their permission, to the mailing list.

## December Deadline

The December ad deadline will be the 19th of the month. Please submit your ads early so that Everything Equine's January issue can be in your stores before the New Year's Holiday!

# HEALTH ALERT

## Equine Disease Bulletin

DSM-EH.1  
(Diagnostic and Statistical  
Manual of Equine-Human  
Interaction Version 1)

**EQUIMANIA:** A serious mental disorder in which occupation with equine and conjunctive/supportive feline and canines interferes with the ordinary tasks of daily living and significantly interferes with normal human social interaction. An addictive component present such that patient congregates only with other equine-dependents and their aggregates.

NO LESS THAN FOUR OF THE FOLLOWING SHALL BE PRESENT TO  
MAKE THIS DIAGNOSIS:

1. Noticeable deterioration of living quarters of human equine-dependent in conjunction with superior maintenance of living quarters of equines and their aggregates.
2. Grandiose component includes preoccupation with the extraordinariness of the patient's equine(s) that flies in the face of reality.
3. Noticeable deterioration of the appearance of patient (personal grooming) in conjunction with horse grooming preoccupation. Potentially obsessive component. (Score 1-5 for level of obsessive component, with 5 being the most extreme.
4. Manic deploy of charge card privileges in tack and feed stores within a 120 mile radius of home...and far beyond ordinary means. Sprees often followed by periods of depression and worry.
5. Preoccupation with detail of hay prices, cutting seasons, and the prices of apples and carrots.
6. Neglect of personal health and dental care and scrupulous attention to veterinary care and teeth floating of equine.
7. Maintenance of a growing number of equines and their aggregates either by breeding or irresistible purchase or both.

**NOTE:** Talking baby talk to 1100 pound animals is not considered part of the mental disease picture.

**TREATMENT:** Obtain an endless supply of small oblong pieces of green paper. These are probably marked "In God We Trust" because only God can really help the Equimaniac. Apply liberally and watch them disappear.

# *Living with Children and Horses:* Combining Horses and Common Safety in the Same Backyard

by Nancy Faulconer

As featured in Natural Horse Magazine...  
"...your kids and horses will love you for reading it. And they will love the workbooks. Great suggestions and ideas for the whole family and in an informal format. Photos throughout to illustrate; get past the 'no helmets in photos' and just read it - she addresses that too. A must-read for ANY adults around kids and horses."  
57 pages plus 11 children's workbooks.

To order visit [www.cloud9ranch.info](http://www.cloud9ranch.info) or call 239-777-6670

# BIG DANGERS IN SMALL AMOUNTS

## Oleander

Oleander is a common outdoor woody shrub in warmer regions and is grown occasionally as a large potted plant. Its flowers are showy and very fragrant. Oleander ranks with yew in toxicity. Oleander contains a poisonous principle similar to digitalis in its effect on the heart, causing arrhythmia and cardiac arrest.

### Symptoms:

- colic
- sweating
- bloody diarrhea
- difficult breathing
- arrhythmia

A single ounce of oleander leaves can kill a 1,000 lb. horse.

## YEW

Yew trees are extremely toxic to horses and all grazing animals. Yew poisoning is the most common form of animal poisoning. All parts (dead or living) are poisonous, especially the leaves. Yew contains an alkyloid that depresses the action of the heart.

Yew is sometimes used in hedges or as an individual ornamental plant, e.g. be careful what you put in the show ring! Yew needles are greenish-yellow on the under surface and have no white stripes.

### Symptoms:

- moderate amounts - mild to severe digestive upsets that may result in death
- sudden death, without warning or symptoms

A handful of Japanese yew is enough to kill a horse!

A veterinarian should be consulted immediately for supportive treatment to reduce the damage caused by ingestion of poisonous plants.

[www.omafr.gov.on.ca](http://www.omafr.gov.on.ca)

## So, how much is an ounce anyway?

Since I do not have oleander or yew, I picked from a shrub that grows around my house. It did not take too many pieces to make one ounce. I would say one ounce is equal to a 'handful'. If your horses are like mine, they could easily gather this much of this shrub in one good bite.

The aspiring psychiatrists from various colleges were attending their first class on emotional extremes.

"Just to establish some parameters," said the professor, to the student from the University of Houston, "What is the opposite of joy?"

"Sadness," said the student.

"And the opposite of depression?" he asked of the young lady from the University of Texas at Austin.

"Elation," said she.

"And you sir," he said to the young man from Texas A&M, "how about the opposite of woe?"

The Aggie replied, "Sir, I believe that would be giddy-up."

Fax: (707) 598-7680

Sheila is a beautiful 7 month old sweetie! She is a happy girl! Lots of fun! She loves people and other animals. She is also very well behaved and very good on and off leash.

Sheila is a special needs girl! We've just discovered that she will need surgery on both her hips to correct a genetic problem. You wouldn't know it to look at her (she jumps, romps, runs and plays without any pain), but she will need surgery in the next 6 months. We are starting a campaign to raise the money to pay for her surgery, but she still needs a home of her own. We'd love to get her into her forever home with her new family before she has her surgery, so she'll recover in the comfort and security of your love.

Please don't let her needs scare you. She bonds very quickly and being as young as she is, we expect a fast and full recovery!

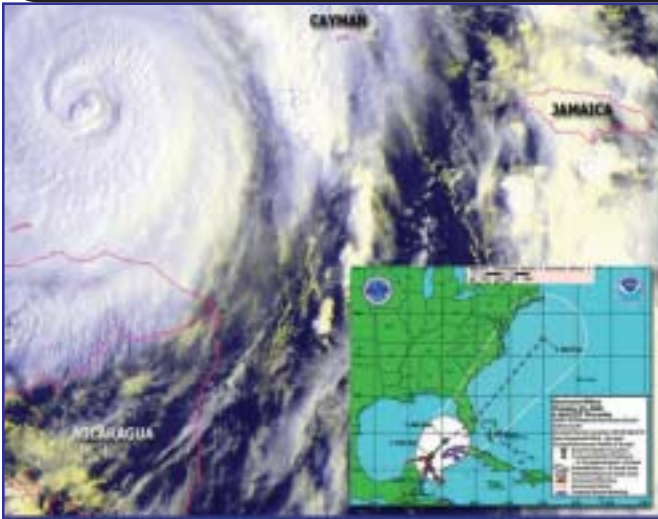

For more information on how you can help this beautiful girl, please call (239) 450-6301, email us at [info@collierrescue.com](mailto:info@collierrescue.com) or visit our Web site at [CollierRescue.com](http://CollierRescue.com).

The adoption fee is \$50.00.

## Wilma

This was the prediction almost 5 days before she hit. I was complacent with forecasts that were days in advance, because they never seemed to be accurate. What were the chances that the hurricane that virtually came down my street, was predicted to do so, so far in advance? I wish I could say I was prepared. Sure, we had food, water and gas in the generator, but I found myself at midnight racing Wilma to get Everything Equine uploaded to the press before I lost power. I made it with about four hours to spare. My home made it through with minimal damage and all my utilities were restored within five days of the hurricane. I

know some did not fare so well. If you or your organization still need assistance, please post your needs on the Everything Equine bulletin board. You can click on the link to the Bulletin Board at [www.everything-equine.com](http://www.everything-equine.com). If you have services to offer, please feel free to post that information as well. Many hands make light work and if we all pitch in together, maybe we can get ourselves put back together before next hurricane season hits.

Thank you, Melody

# Lost? Missing? Stolen?

If you are in the unfortunate situation to have lost a dog or cat, or have a horse stolen, Everything Equine would like to help. Please send a photo and information about the lost or stolen animal. It will be included free of charge on a space permitting basis. You may also go to [www.everything-equine.com](http://www.everything-equine.com) and click the link to the Bulletin Board. You may post your lost or stolen pet on the message board.

Visit [www.netposse.com](http://www.netposse.com) for more information about recovering stolen horses.

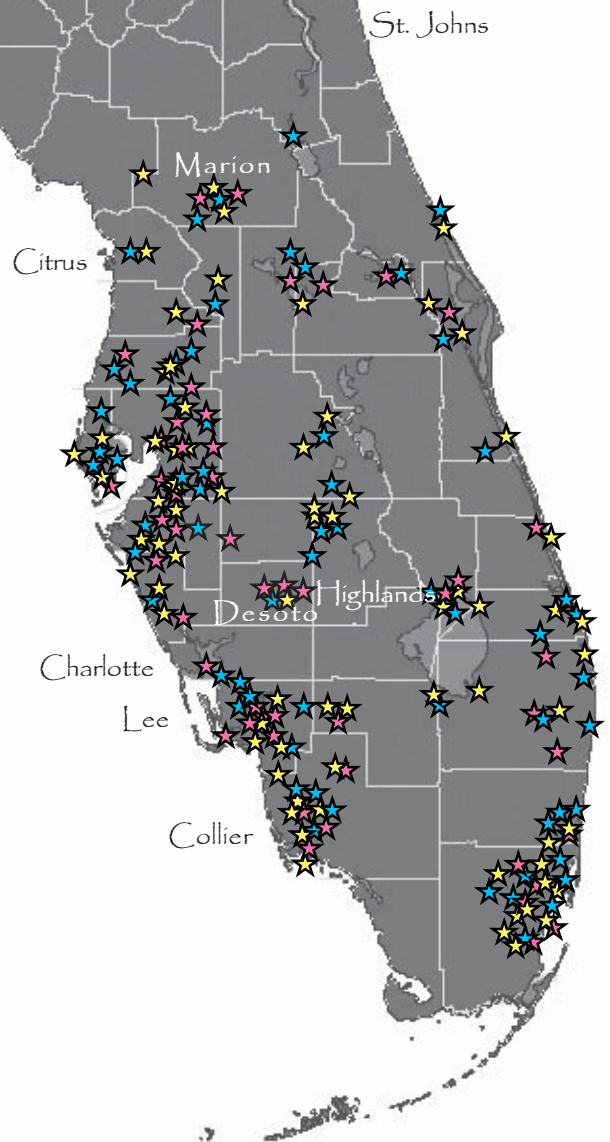

## Happy Birthday to Everything Equine!

You can ship any presents to the address listed on the inside of the front cover. HAHA! Just Kidding!

WOW, look how the magazine has grown. Last December, 3000 copies of the premier issue of Everything Equine were printed and delivered to a handful of stores. This December, almost three fold will be printed and delivered to over 200 stores! As a bonus for the advertisers, Everything Equine is now available on the internet. All the issues can viewed in PDF format. Everything Equine (with a little help from a friend) has established an equine forum, Everything Equine's Bulletin Board, for the members of the community to stay in touch. What a difference a year makes!

*Delivered to over 200 locations in Florida and into millions of livingrooms across the world. It just does not get any bigger than that!*

Horse tales is an area where original, unpublished works by local writers and artists will be featured. If you have a short story, poem, work of art or anything that you've created and are interested in seeing in print, please submit to Everything Equine. Everything Equine and local businesses provides this opportunity for children and adults alike to show their creative abilities and talents to the entire community. Please limit your submissions to horse related tales that coincide with an equestrian or farm oriented way of life.

## Why I Love Horses

By Katie Stahl,  
Age 7  
Homeschooled,  
Collier County

I love horses because they are fast, and a lot of fun!

I have 5 horses that I ride. Two are mine. The other three are my mom's and dad's. I can do a lot of things with horses. I go trail riding, I play buddy pick up with my friends and I run the barrel patterns and play games that Claire taught me. I take lessons at Cloud9 Ranch to learn more about horses, and the fun that I can have with my horses.

On Halloween, Honey and I were in a costume contest. I was a Mega Star, and Honey was a Hula Girl. I had a lot of fun with my horse on the ground, and in the saddle!

A Haiku by Jordan Faulconer,  
Age 8, Homeschooled,  
Collier County

## My Goat

I have a fat goat.  
She has a little problem.

The problem is GAS!

## It's a small world, so here are 350 different ways to wish the world a HAPPY HOLIDAY SEASON!

For immediate release..

## New Registry Formed - Does your horse qualify for the

# NCMA?

Does your horse have knee action? Do the words "sewing machine" come to mind when describing your horse's movement? Then the **National Crappy Movers Association** (NCMA) welcomes you! Founded in 2005, this Association was created to preserve the jackhammer like movement and total lack of symmetrical conformation of the recreational horse of years past. We here at the NCMA recognize that all horse enthusiasts have at one time had a horse that made them want to wear two bras and duct tape themselves to the saddle. Up until this time there has been no association recognizing horses of this quality. Qualifications for registry are the following:

1. Movement must be of sufficient quality to cause male riders' voices to rise an octave while riding.
2. While in a forward gait the horse's knee joint MUST flex to at LEAST 90 degrees upon lifting.
3. Headset. Horses that root at the bit are preferred. Stargazers favorable. Nose straight out is acceptable. Head tossing very desirable.
4. Tail set must be set at top of horse's back and stick up a minimum of three inches (preferably rubbed out at base.)

Show classes will include Displeasure. A good Displeasure horse should be able to outrun all other horses in the class. Riders must stay off rail at all times. Accidental running over of the judge will not be penalized. Displeasure horses should be ridden in a tight rein. Transitions should take at least 1/4 length of arena.

Attire - All riders can use hemorrhoid cushions if needed. Jockey goggles are mandatory during the Displeasure class, due to excessive wind from speed.

# THE HOOF SUPPLEMENT WITH A KICK!

## Total Mobility EQ™

The strongest, highest quality premium hoof supplement on the market, scientifically formulated to promote strong, healthy hooves. It also contains Glucosamine Sulphate 2KCL, an effective ingredient to help your horse's joints. Its wide range of proven ingredients, several of which contribute sulphur, feed the many complex tissues required for your horse's "total mobility". The doctors at MD's Choice have created a product with highly effective levels of the specific nutrients that are the most important and necessary for maintenance of both hoof and joint health, at the lowest daily cost possible, and in a convenient, premixed pelleted form that is easy to use, easy to dose, and easy to justify to the average horse owner's pocketbook.

## Why Spend Your Money on a Product that Gives You Less? Compare Total Mobility EQ™ to Some of the Other Hoof Supplements

| Shoer's Friend           | Pellet | 6.25 mg | 1,134 mg | 7,142 mg*  | 170 mg    |           |            |           | Yes/Yes         |                                                 |

\*7,000 mg or more of Methionine (in a 1,000 lb. horse) can block or inhibit the body's ability to use copper if given at that dosage for more than 30 days.

\*\*Manganese (Amino Acid Chelate), the most bioavailable form of Manganese. Check if your hoof supplement is using this form.

\*\*\*Glucosamine HCl has been proven to be less bioavailable than Glucosamine Sulphate 2KCL, with significantly lower absorption. See Web site for more info.
